

Integra Project

It is about a conception in which the founder President has conceived a reality beyond the space and in which different realities, made up during his personal career, coexist in an integrated way.

- Foundation Phi.
- espaciophi: the companies affiliated by the foundation and the current and future activities that are carried out.
- Projects.
- Conferences.
- Courses.
- Seminars.
- Activities.
- Phi Method.

In short, a conception that goes beyond words and that we choose to transmit through the conceptual diagram that our President has designed for this purpose.
